REASONS TO VOTE NO

- 1 - THIS BILL DOES NOT GUARANTEE RATEPAYER SAVINGS
- 2 - THIS BILL DOES NOT AUTHORIZE "TRANSITION" FUNDS
- 3 - THIS BILL IS NO LONGER A "PILOT" — ANY INVESTOR OWNED UTILITY CAN TAKE ADVANTAGE OF THIS
- 4 - THIS BILL IS PREMATURE AS SECURITIZATION IS ALREADY A STUDY TOPIC (HB 1220)

WITHOUT GUARDRAILS IN SB 386:

There's nothing to keep utilities from double charging customers for the cost of the plant — first in their regular base rates and then again in a new charge as a result of SB 386.
